# AVIONICS INTEGRATION TEST BENCH DELIVERABLES

ELEC 491 Capstone Project University of British Columbia

11 April 2023

### **Table of Contents**

| 1. List of Deliverables           | 3 |
|-----------------------------------|---|
| 1.1 Project Report Deliverables   | 3 |
| 1.2 Electrical Deliverables       | 3 |
| 1.3 Software Deliverables         | 3 |
| 1.4 Mechanical Deliverables       | 3 |
| 1.5 Documentation Deliverables    | 3 |
| Appendix A: Team Information      | 4 |
| Appendix B: Project Contributions | 5 |
| Report Contributions              | 5 |
| Deliverables Contributions        | 5 |
| Appendix C: Client Signature      | 6 |

### 1. List of Deliverables

| 1.1 Project Report Deliverables   |
|---|
| ☐ Requirements Report Document  |
| ☐ Design Report Document  |
| ☐ Verification & Validation Report Document   |
| 1.2 Electrical Deliverables   |
| Assembled electrical hardware for at least one complete test bench setup,<br>including printed circuit board assemblies (PCBAs) and any custom cabling/wire<br>harnesses. |
| 1.3 Software Deliverables   |
| ☐ Test bench GUI application executable   |
| ☐ Python source code to GUI application   |
| ☐ Device firmware and FPGA configuration source code  |
| ☐ Final build artifacts for device firmware and FPGA configuration  |
| 1.4 Mechanical Deliverables   |
| Mechanical housings, casings, or stands for the test bench hardware with all<br>necessary fasteners.  |
| 1.5 Documentation Deliverables  |
| ☐ Test bench system user manual   |
| ☐ Schematics, hardware specs, and datasheets  |
| ☐ Bill of materials   |
| ☐ Capstone video  |

# **Appendix A: Team Information**

| Name                   | Initials | Tech Lead                  | Management Lead                     |
|------------------------|----------|----------------------------|-------------------------------------|
| Anthony Wang           | AW       | GUI software (front end)   | Deliverable<br>Organiser            |
| Nursultan<br>Tugolbaev | NT       | Hardware                   | Internal Discussions / Meetings     |
| Patric McDonald        | PM       | GUI software<br>(back end) | Treasurer<br>Minute taker           |
| Andrew Hanlon          | AH       | Firmware                   | Client<br>Communication             |
| Isabelle André         | IA       | Digital logic design       | Internal/External<br>Communications |

### **Appendix B: Project Contributions**

### **Report Contributions**

| Section                 | Major<br>Content | Minor<br>Content | Author   | Reviewer       |
|-------------------------|------------------|------------------|----------|----------------|
| List of Deliverables    | AW<br>PM         | IA<br>NT<br>AH   | AW<br>PM | IA<br>NT<br>AH |
| All sections formatting | AW<br>IA         | AW               | AW<br>IA | IA<br>NT       |

### **Deliverables Contributions**

| Deliverable    | Major  | Minor  | Major   | Minor   |
|----------------|--------|--------|---------|---------|
|                | Design | Design | Testing | Testing |
| Project Report | IA     | IA     | IA      | IA      |
|                | AH     | AH     | AH      | AH      |
|                | NT     | NT     | NT      | NT      |
|                | AW     | AW     | AW      | AW      |
|                | PM     | PM     | PM      | PM      |
